- [ ] Alarm silence

V*Home & V+Pro Caregiver and Patient Training Checklist

Emergencies	
☐ Emergency situations	☐ What to do in an emergency

Cleaning and maintenance	
☐ Device cleaning	☐ Air filters
☐ Accessory cleaning	☐ Maintenance

Patient Safety Reminders & Alarm Warnings

Please refer to the VOCSN Clinical and Technical Manual, available online at Reacthealth.com. Carefully read all warnings (general, placement, patient circuit, therapy, etc.) and cautions.

Maintenance Reminders

The low-priority Maintenance Due alarm will activate when the ventilator needs maintenance. Contact your DME provider for service if you see these alarms.
